

notes from the field

Location: *Sierra de la Ventana, Argentina*  
Product Sourced: *Organic Lavender*

The Story: *With a temperate climate and similar elevation to that of France and Ukraine, our southern hemisphere source of organic lavender allows us to take advantage of the rotational crop cycle and provide fresh product year round. And we couldn't have found a better source a family farm of more than 80 years working 6000 certified organic hectares. The purity of their lavender is unsurpassed as it is free from cross contamination common to some growers.*
