

notes from the field

Location: *Northern Vietnam*

Product Sourced: *Organic Cinnamon*

The Story: *When talking about premium quality cinnamon, it's all about the oil. With the highest oil content, Vietnamese cinnamon produces a pungent aroma and rich flavor. We found our source in the mountainous area of Northern Vietnam, where a cultural minority community of farmers harvest the cinnamon trees. We only purchase cinnamon cut from the base of the tree, where the highest concentration of oil is found, which allows us to guarantee a 5% oil content.*

Part of our Well Earth sourcing program.
