New home and body products include a fragrant line of household cleaners and aloe-based hairstyling products

Most styling products are nothing but chemicals. For a non-aerosol, paraben-free alternative, try **JASON NATURALS ALOE VERA & BERGAMOT FINISHING SPRAY** and **SHINE SPRAY**—both provide hair with flexible hold and shine, naturally.

AURA CACIA'S GINGER MINT line of body products includes a warming Body Wash and an ultra-thick Body Cream for rough, dry skin. Both contain pure mint and ginger essential oils.

TERRANOVA'S TUBEROSE BATH & BODY COLLECTION adds the seductive and fresh floral fragrance of rose to Petal Soft Lotion with green tea and vitamin E and Shea & Coconut Softest Skin Body Butter. The line also includes a body wash, perfume and body oil.

GINGER POMELO is the newest scent in **CALDREA'S** line of all-natural cleaning and body care products. Essential oils of ginger, grapefruit and pomelo create fragrant Dish Soap Liquid, Countertop Cleanser and Hand Balm.

Aloe's Healing Benefits

Most people rely on aloe for soothing irritated skin and moisturizing dry patches. But holistic practitioners have known about aloe's many other uses for years—and now mainstream medicine appears to be catching on. According to Medline Plus, a service of the US National Library of Medicine and the National Institutes of Health, early research indicates that aloe may effectively treat constipation, lung cancer, canker sores, type 2 diabetes, HIV infection, ulcerative colitis and psoriasis, among other conditions.
