

Frontier[™] Organic Essential Oils

Each oil undergoes rigorous in-house testing for quality and purity; our essential oils also come with informative labels listing sourcing information and the plant's common and Latin name. Frontier's 0.33 fl. oz. bottles employ a patented neck insert that measures the oil drop by drop.

0.33 fl. oz.

SAFETY GUIDELINES

Essential oils and absolutes are very potent and should always be used sparingly and in conjunction with a reliable reference. For specific safety guidelines for each essential oil see page 267.

Vegetable Oils

Vegetable oils are produced from nuts, seeds, grains and beans. They are sometimes referred to as "fixed" oils because they are not volatile and they make an excellent base in which to dilute essential oils for body-care products.

8 fl. oz.

Item #	Product Name	Price	SRP
3543	Almond, Sweet	5.28	8.85
